

SSID: HK First Waste Paper Recycler Awarded Three Major ISO Certificates

Secure Information Disposal Services Limited (SSID) was successfully awarded the ISO 9001:2008 and ISO14001:2004 certificates from the Accredited Certification Limited (ACI) in May, 2010. Together with the ISO27001:2005 certificate obtained in March, SSID is the first waste paper recycler to obtain three major ISO certificates in HK.

SSID provides both general and confidential documents disposal services for offices and institutions. Since its operation in last October, SSID has already won the support of many companies and institutions. Mr. Harold Yip, Executive Director of SSID states, "Our clients make use of our services to avoid non-compliance, to meet quality and environmental policies and to work out carbon footprint. We have to ensure our services in terms of quality, sustainability and information security. Definitely, the certification issuance proves that SSID within the scope of the certification of quality management system, environmental management system and information security management system complied with international standards. This is a guarantee of our services to our clients too. "

SSID is the first company in this industry to apply RFID technology to trace and track all confidential documents received. It is also the first company in this industry to work on carbon footprint and to reward Verified Emission Reductions for the clients. SSID is committed to providing the best services and to setting the highest industry standard.

SSID: 香港首家取得三項主要 ISO 認證的廢紙回收服務商

資訊機密處理有限公司(SSID)繼本年三月取得 ISO 27001:2005 證書後，再接再勵，成功取得由國際認可認證有限公司(ACI)發出的 ISO9001:2008 及 ISO14001:2004 證書。 SSID 是本港首家取得三項主要 ISO 證書的廢紙回收商。

資訊機密處理有限公司為機構及辦公室提供一般及機密文件處理服務。自去年十月成立以來，即贏得多家企業和機構的支持。SSID 執行董事葉文琪先生表示：「顧客使用我們的回收服務，是為避免違反法規，或達成公司的質量及環保目標，或計算碳足跡。我們必須確保服務的質量、對環境的可持續發展、對資訊的安全保密。是次認證的頒發，證明 SSID 於認證範圍內的服務之質量管理、環境管理及資訊安全管理，符合國際標準組織的要求。對顧客而言，這亦是服務質量的信心保證。」

SSID 是首家應用無線射頻技術去追蹤機密文件包裹的機密文件銷毀公司；亦是首家協助客戶計算碳足跡並回饋碳抵消的廢紙回收商。SSID 決心為顧客提供最佳服務，與及為行業設立最高標準。
